KEEP YOUR FINGER ON THE PULSE OF YOUR FARMING

Take control of your farming operations

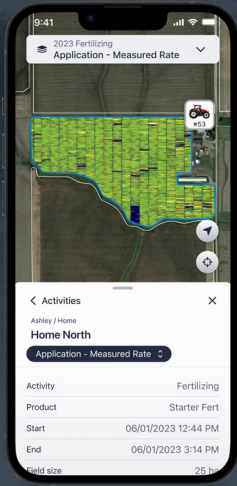

- » MONITOR YOUR MACHINE FROM ANYWHERE, ANYTIME
- » NAVIGATE YOUR OPERATIONS EFFORTLESSLY
- » GAIN COMPREHENSIVE AGRONOMIC INSIGHTS
- » ACCESS YOUR DISPLAY REMOTELY

With STEYR FieldOps™, you have at your command a single, simple platform that covers all monitoring, management and recording of data and activities for your connected machines.

Regardless of make or type, FieldOps™ ensures each machine's data is easily accessed via one intuitive platform.

With FieldOps™ you always stay close to your farming operations, no matter the distance.

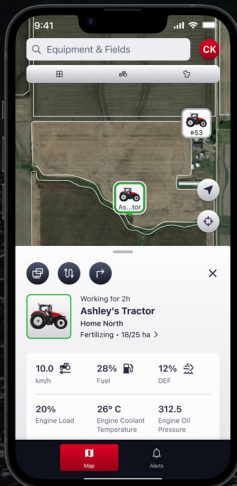

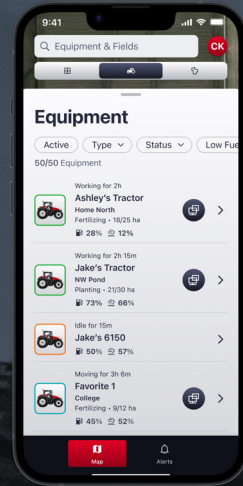

MONITOR MACHINES IN NEAR REAL-TIME

With FieldOps™ you can see exactly where your equipment is, what it's doing, how much of a job has been completed, and see its last 24 hours' activity history.

TRACK YOUR MACHINES' PERFORMANCE

With FieldOps™, you can instantly monitor every detail of your fleet (e.g. work status, fuel consumption..) and use the data at your fingertips to make near real-time decisions.

VISUALIZE YOUR DATA AND GAIN COMPREHENSIVE AGRONOMIC INSIGHTS

With FieldOps™ you have agronomy and field conditions data from STEYR and third-party systems at your fingertips. See the activities for a particular field and select data layers to visualize, create prescriptions and run agronomic reports.

REMOTELY VIEW IN-CAB DISPLAYS

With FieldOps™ you can connect remotely via the portal to the in-cab displays, helping the operators to make promptly adjustments when needed.
