

Comprehensive protection for your New Holland machinery

The ultimate mechanical protection plan for your hard-working equipment.

As productivity expectations continue to rise, the demands on agricultural equipment are greater than ever. At New Holland Agriculture, we understand this better than anyone. That's why we've created OptiCover – an extended warranty specifically designed for the hardest-working agricultural machines.

OptiCover offers flexible, comprehensive coverage that goes beyond the standard product warranty, providing enhanced protection and peace of mind in the event of the unexpected. It safeguards against defects in materials and workmanship, minimising the risk of mechanical failure and ensuring optimal performance for your equipment.

You can purchase OptiCover within 30 days from the date of delivery of your new equipment.

OptiCover is engineered to extend the standard product warranty

on New Holland tractors, combines, balers,
forage harvesters and self propelled windrowers
to provide even more protection and peace
of mind.

OptiCover Plans

**Choose from
a range of plans
and get optimal
mechanical peace
of mind for up to
five years.**

The entire plan duration includes the base product warranty provided by New Holland, giving you the flexibility to extend protection according to your needs for up to 5 years and 5000 hours in total.

OptiCover benefits

Flexibility of plans

OptiCover allows you to choose your protection plan to meet your individual needs.

Quality repairs

All eligible repairs are carried out using Genuine New Holland Parts fitted by factory-trained technicians.

Transferable protection

OptiCover plans remain with the machine and can be transferred to the new owner if sold during the protection period*

*Please refer to your OptiCover Warranty Registration Document for further information.

Financing

When acquiring an OptiCover Plan with your next New Holland machine, speak with your dealer on a complete finance package.

(OptiCover Plans financed through CNH Industrial Capital New Zealand Pty Ltd or CNH Industrial Capital Australia Pty Ltd are required to be financed with the new machine purchase at time of sale and are subject for approval).
