

Why choose Genuine CASE IH oil filters?

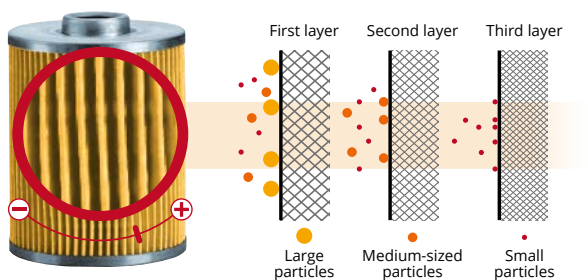

ESSENTIAL PROPERTIES OF THE FILTER. A GENUINE CASE IH OIL FILTER OFFERS TWO KEY ADVANTAGES:

HIGH-QUALITY FILTRATION

CASE IH Genuine filters have a high-tech internal structure:

The multilayer medium. Made from three layers of synthetic material, it offers a higher filtration capacity and resistance.

MULTILAYER MEDIUM

5X MORE EFFICIENT:

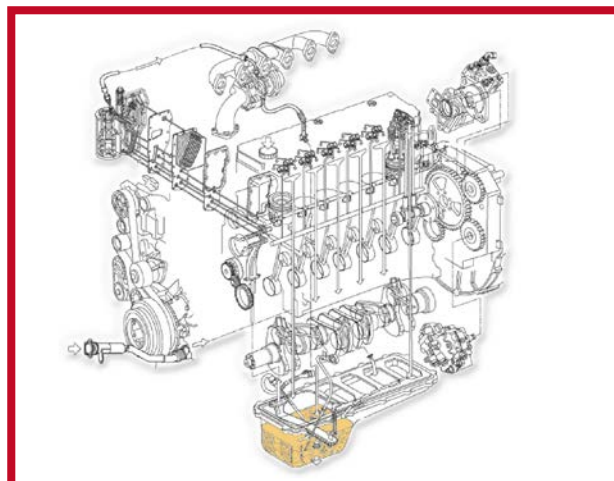

Genuine CASE IH oil filters have a retention efficiency percentage which is 5 times higher than standard filters.

OPTIMAL, LONG-LASTING LUBRICATION

For optimal, long-lasting lubrication with no premature wear to mechanical parts, the oil must be pure.

EXAMPLE OF OIL FLOWING THROUGH A CIRCUIT

The retention efficiency and optimal flow rate of the oil also guarantee **IMPROVED COLD STARTING WHATEVER THE OUTSIDE TEMPERATURE.**
