# Akcela®

At the very heart of your business

**PETRONAS Akcela NO. 1 ENGINE OIL 15W-40** is a premium engine oil developed in collaboration with Case IH for Tier 3 and previous generation engines. It meets the requirements of engines with SCR and EGR technology. High dispersing force for effective control of thickening phenomena due to soot produced by combustion.

- It maintains viscosity to prevent increases in fuel consumption/stability test above and beyond the API standard **87%**
- It prevents thermal degradation, which leads to increased wear/ reduces the wear on rings above and beyond the API standards **55%**
- It combats the formation of acids which increase lubricant degradation/ demonstrates greater resistance to acidification than the API standard **43%**

## FOR OPTIMUM PERFORMANCE, CHOOSE A CASE IH HIGH LEVEL

**MORE THAN 200**  
inspection points in addition to precise, comprehensive electronic diagnostics.

# SERVICE!

- ① **HARVESTER HEAD**
    - Disc hedge trimmer
    - Beater
    - Auger
    - Cut transmission (chains, belts)
  - ② **CONVEYOR**
    - Condition of chains and bars
    - Conveyor drive unit
  - ③ **ROTOR, COUNTER-ROTOR AND SIEVES**
    - Condition of the cone, cage, rotor studs and counter-rotors
    - Counter-rotor adjustment systems
    - Transmission housings, pulleys and belts
    - General condition and control and adjustment devices
  - ④ **GRAIN ELEVATOR**
    - Chains, sprockets, bearings
    - Augers, gearboxes and pulleys
  - ⑤ **HOPPER**
    - Opening mechanism check
    - Inspection of augers
    - Gearbox and corresponding drive system check
  - ⑥ **STRAW CHOPPER**
    - Balance check
    - Wear of blades/counter-blades
    - Drive system check
  - ⑦ **CAB**
    - Cab air filter, air conditioning system, heating and ventilation
  - ⑧ **ENGINE**
    - Check to ensure correct operation
    - Hose tightness check
    - Cooling system check
    - Oil level check
  - ⑨ **TRANSMISSION**
    - Dynamic test
    - Tyre and track condition check
- GREASING**
- Automatic greasing system check

**ELECTRONICS SYSTEM AND E.S.T. DIAGNOSTICS TOOL**

- Connection of the E.S.T. diagnostics tool
- Check on the information recorded by the machine and software update
- Visual check on the condition of the machine wiring harnesses
- Navigation system check
- Check on the settings, where necessary (counter-rotor, sieves, cutter bar, transmission, etc.)

# PRE SEASON CHECK BENEFITS

**BOOK EARLY, FOR GREATER PEACE OF MIND**

## BOOKING IN ADVANCE GUARANTEES

- ✓ Off-season special offers
- ✓ Availability of parts
- ✓ Reduced risk of machine downtime during harvest

## CASE IH HI-TECH SERVICE

- ✓ Technical expertise
- ✓ Full check of the machine and software updates
- ✓ Use of genuine parts for original-quality performance
