BUNDLE PRICE
\$7,500
EXCL. GST

BOOST YOUR PRODUCTIVITY AND ENHANCE YOUR OPERATOR COMFORT WITH THE XCN-1050™ DISPLAY SYSTEM AND ASSISTED STEERING BUNDLE.

XCN-1050™ DISPLAY

From the XCN family of consoles, the XCN-1050™ features a multi-touch surface for convenient fingertip control, and an Android operating system. The XCN-1050™ is a display that allows you to get more done, with greater precision, at lower cost.

NAV-900™ GUIDANCE CONTROLLER:

The NAV-900™ features a powerful GNSS engine and an industry-leading guidance controller in a single, roof-mounted enclosure. The multi-constellation GNSS receiver uses multiple frequencies of satellite signals to provide faster convergence times and more robust performance.

EZ-PILOT® ASSISTED STEERING SYSTEM:

Stay on course with the high-accuracy, easy to use, EZ-Pilot® assisted steering system. When your machine is in motion the EZ-Pilot® assisted steering system turns the steering wheel for you, courtesy of a fully integrated control module using GPS guidance from the XCN-1050™ display.

BUNDLE CONTENTS:
