EXPERTS FOR THE REAL WORLD
SINCE 1842

CASE Protect is the most comprehensive safeguard for your machine. It is the assurance every business needs to stay competitive, productive and profitable.

This premium support by CASE covers critical components of your machine for an extended duration. Your machine is our responsibility.

What is CASE Protect?

CASE Protect is an extended warranty that can be purchased during the first year of machine ownership. This program covers all hydraulic components, structures, transmissions, axle and the engine and has the same exclusions as your standard warranty. With CASE Protect, you are giving your machine expert care, round-the-clock support and hassle-free operations allowing you to prolong your peace of mind.

Flexible warranty coverage to meet your machine requirement and budget

Trained Service Engineers

Special tools, parts and facilities for all your needs

Why CASE Protect?

THE BEST SAFEGUARD FOR YOUR MACHINE

As a customer of CASE Construction, you deserve the additional peace of mind of knowing that your product is covered, in case of an unexpected return. CASE Protect removes the burden of cost and the inconvenience of mechanical failure once your manufacturer's warranty has expired.

SERVICE SUPPORT

When you choose CASE protect, you're not simply paying us to insure your critical components. This package comes with four additional, labour free periodic services. We're here to ensure that your machine is serviced and maintained in good working order.

MEASURABLE VALUE

The CASE Protect program is a shield against inflation. With a one time payment, you are safe from the rising costs of parts and labour. You are guaranteed genuine parts, expert technicians, no out of pocket expenses and 24/7 coverage. What's more, when you sell your machine, the warranty is transferred, allowing for a higher resale value.

Experience the most comprehensive safeguard for your machine with flexible schemes:

CASE Network

A robust dealer network, a fully stocked central warehouse and our well-connected depots help us in the smooth and on-time delivery of parts and services thus decreasing downtime and maximizing productivity and efficiency of your machine.

INNOVATION AT YOUR FINGERTIPS

Our Eagle Eye Telematics system is technology at it's best. It's an intuitive system that gathers critical data about maintenance, tracking, utilization and security of the machine and sends out alerts in real time related to fuel usage, battery, geofencing, engine etc. It's a great way to boost productivity and reduce downtime. It provides measurable and actionable information thus helping you in strengthening your business.
