FARMALL A

3 models from 90 up to 110 hp

Delivering heightened value, power and flexibility, the Farmall A utility series is back with performance enhancements and a higher power model, with up to 110 hp. This ideal utility tractor features a lightweight, compact frame that optimizes the tractor's agility. The feature-loaded Farmall A is the economical choice for tending to all of your operation's needs. Integrated precision technology and guidance solutions simplify the operating experience, ensuring efficiency no matter the season or task at hand.

ENHANCED PERFORMANCE

- 4-pillar cab with 360° visibility and flat floor
- Models ranging from 90-110 hp offering flexibility for varying needs
- ManualDrive 12x12 mechanical or Electronic PowerShuttle (both creeper ready) or factory fitted 20x20 with creeper transmission options
- ActiveClutch, brake to clutch, feature allowing easy one foot stop and drive process without the need to press the clutch pedal anymore (available on Electronic PowerShuttle models)
- Clutch-less, Electronic PowerShuttle with shuttle aggressiveness adjustment for ideal shuttling experience for your different needs.
- 82 l/min hydraulic pump and up to 3 rear remotes and optional diverter available for faster reaction time and loader cycles
- 3 speed (540/540E/1000) rear power take off (PTO) with optional ground speed PTO
- Robust machine with 6.5 tons GVW for greater stability, durability, and heavy-duty performance
- 4.4 tons rear lift capacity for handling heavy implements with ease, boosting productivity and versatility

FLEXIBLE APPLICATION

- New, easy to operate integrated Case IH L625 front loader, designed to maintain a compact footprint
- Loader package and front FHPL with optional front PTO
- Front PTO with wet clutch for smoother operations whether in the field or farmyard
- New front axle with improved steering response, offered in 2WD and 4WD
- Lift-O-Matic ensures depth stability and quick response

SIMPLIFIED OPERATION

- New digital instrument cluster with enhanced and intuitive parameters as well as adaptive lighting
- Improved operator visibility in-cab with the redesigned U-shaped exhaust pipe and new LED light packages
- New, modern styling that maintains the Case IH brand spirit and reinforces the next era of utility tractors
- Case IH Pro 700 Plus display with integrated precision technology for smarter, more efficient operation and seamless control
- CM100 Easy Link connectivity available
- FieldOps lets you manage your machine data and location unlocking the power of connected services on your Farmall A
- ISOBUS Class II implement compatibility

Safety never hurts! Always read the Operator's Manual before working with any equipment. Inspect equipment before using it, and be sure it is operating properly. Follow the product safety signs, and use any safety features provided. This literature has been published for worldwide circulation. The standard and optional equipment and the availability of individual models may vary from one country to the next. Case IH reserves the right to undertake modifications without prior notice to the design and technical equipment at all times without this resulting in any obligation whatsoever to make such modifications to units already sold. Whilst every effort is made to ensure that the specifications, descriptions and illustrations in this brochure are correct at the time of going to press, these are also subject to change without prior notice. Illustrations may show optional equipment or may not show all standard equipment. Case IH recommends AKCELA lubricants.
